WHEN YOU KNOW THE DIFFERENCE<sup>SM</sup>

## THE NEWMAR DIFFERENCE

*Over the past 40 years, Newmar has created a heritage devoted to quality, innovation, luxury and Amish craftsmanship.*

*Newmar products incorporate sound construction principles, such as the leveled and squared chassis, sub-floor structure that is integrated and welded to the chassis rail and insulation that makes them easy to heat and cool. We use innovative technologies, which include Comfort Drive® Steering, a real-world wiring system, and we test and weigh each vehicle to make sure it meets our high expectations. We also provide custom-built touches, like our hand-crafted cabinetry. With Newmar, you get the ultimate in luxury from a company that's dedicated to its roots and stands for the utmost in quality.*

Comfort Drive steering reduces the driver's efforts behind the wheel and when controlling the coach in all situations. Parking, cornering and backing up are easier, due to improved maneuverability from automatically centering and correcting steering.

**NEWMAR TOTAL COMFORT™ CENTRAL AIR CONDITIONING**

Experience RV air conditioning just like that found in site-built homes. Newmar's Total Comfort Central Air Conditioning is actually two separate, fully ducted systems: one to distribute incoming cool air, the other to quickly and effectively remove warm air from every living area.

**PROTECTED C-CHANNELS**

To keep the electrical wiring that runs through holes in the aluminum-frame C-channels from chafing, each hole is ringed with a plastic grommet.

**SIKAFLEX®**

Used throughout Newmar construction, Sikaflex elastic adhesive is one of the strongest bonding agents on the market today. It also serves as a sealant against air and water. And it helps dampen both sound and vibration.

**16" ON-CENTER FRAMING**

Just like a fine site-built residential home, your Newmar home is framed 16 inches on center, which allows the best placement of outlets, switches and other components.
